Special Consideration

---

Dear Jonathan Edwards

Date of Assessment: 21/04/2020

Assessment Type: Test

Assessment Value: 20 %

I am pleased to advise that the grounds for your Special Consideration Application submitted on 25/04/2020 have been accepted by the Special Considerations Committee.

Your application will now be forwarded to the relevant department(s) to determine an appropriate academic remedy.

An academic remedy might be any of the following:

1. An extension of time to complete the assessment, or permission to complete the assessment at a different time.
2. Provision of special facilities to complete the assessment.
3. An alternative assessment.
4. A computed grade based on other assessment completed. A computed grade is determined at the end of the course and will be released with final grades annotated with 'AEG'

Please note that while the grounds of an application may be accepted by the Special Consideration Committee, you may, in the department's view, achieve the result expected for the assessment in which case an academic remedy will not be applied. Also, if in the department's view you have not completed a sufficient amount of coursework, an academic remedy may not be applied.

We will email you if the department does not apply an academic remedy.

Yours sincerely,

Special Consideration Administrator  
Student Records, Examinations and Graduation  
University of Canterbury
